Part 1 - Editing Services & Service Notes

- Editing Services
- Erroring Services
- Editing Documentation

Corrections Definitions

- **Service:** A Service is a billable or non-billable activity that is entered to be claimed by various Payors (Medi-Cal, private insurance, county funds)
- **Procedure:** A Procedure or Procedure Code is the specific code used for the service. The procedure is what is being billed
- **Progress Note:** Agencies who use SmartCare as their EHR, document services into SmartCare using a Progress Note. Progress Notes are entered by direct care staff only. The progress note documents the details of the service, while also generating a service
- **Assessment:** Documentation entered as a part of QM documentation standards. Assessments do not generate a service

Corrections Definitions Cont.

- Pre-Claiming: Services that have not been sent to the Payors yet
- Post-Claiming: After services have been sent to the Payors
- Show: A service status that indicates a service is not ready to be claimed. There is something wrong with the service that is preventing it from being claimed
- Complete: The service is ready to be claimed
- Error: A service status that removes the service and any documentation (essentially deletes the service and progress note)

Editing Services

- If a service is in Show status or if it has not been claimed, then it can be edited
- Not everything on a service can be edited (See next slide)
- If a service cannot be edited it can be put in error status
- Only administrative staff can make corrections to a service
 - Clinical staff can make changes to their documentation
 - Admin staff can edit the service only, not the documentation
- Editing the service will not pull forward to the PDF of the service note (if a note was entered)
 - The Direct Care staff who entered the note can edit the note after the service has been edited and that will create a new PDF with the new service information

What Service Information can be Edited

Services in Show Status

- Location
- Mode of delivery
- Start date
- Start time
- Program
- Procedure
- Service Time (Duration)
- Clinician name (Only if the note is not signed)

Services in Complete Status

- Location
- Mode of delivery
- Start date
- Start time
- Procedure (If the note type matches the new procedure)
- Service Time(Duration) (Billing team will need to regenerate the charge)

➤ Run the “Program Staff Services Export (SAC) (My Office)” report

- The report will show service details for your program
- The status field on the report will show if a service has been claimed
- To view all service status definitions, refer to the cheat sheet posted on the Claiming page
 - <https://dhs.saccounty.gov/BHS/BHS-EHR/Pages/EHR-Claiming.aspx>

How do I Know a Service has been Claimed?

FTF	Travel	Doc	Status	Charge Code
8.00	0.00	5.00	C-Claim Sent	H2011
35.00	0.00	9.00	C-Claim Sent	H2011
50.00	60.00	10.00	C-Claim Sent	H2011
10.00	0.00	5.00	C-Paid	H2011
8.00	0.00	5.00	C-Paid	H2011
30.00	0.00	10.00	C-Claim Sent	H2011

120.00	0.00	30.00	C-Charge Created	H2011

Pre-Claiming Edits

- If a service was entered prior to the current month, it is important that you run the “Program Staff Services Export (SAC) (My Office)” report before making any edits to a service in Complete status
- If the service is within the current month, it has not been claimed and it is not necessary to run the report
- If the report shows the services have claimed out, do not make any edits and do not put the service in “Error” status

Making a correction in Complete status

- If your service is in Complete status and you change either of the following fields, reach out to the Billing Team to regenerate the charge
 - Duration/Unit
 - Procedure Code
- The Billing Team can be reached via email

Regenerating Service Charges

Correcting Procedures

- If you receive the error shown below, you will not be able to make the change in procedure
 - The service will need to be changed to Error status
- SmartCare allows you to change a procedure that is in Complete status as long as the note type is the same as the new procedure
 - If the service is in Show status the procedure can be changed

The screenshot displays the 'Service Detail' form in a software application. At the top, there is a 'Regenerate Charge' button and a toolbar with various icons. A yellow error banner at the top reads: 'You can not set a Procedure code which is associated with a different Associated Note Id'. Below this, there are three tabs: 'Service Detail', 'Billing Diagnosis', and 'Authorization(s)'. The 'Service Detail' tab is active, showing a 'Service' section with the following fields:

Client...	Test, Entry	Status	Show	Start Date	09/22/2023	Program	xxxxSa
Procedure	TCM/ICC	Modifier...	Start Time	9:00 AM	Face to Face Time	50	
Clinician Name	Saldivar, Sarah				End Date	09/22	

What to do if you Cannot Edit a Service

- If a service cannot be edited it will need to be put in Error Status
- Reasons why a service may need to be put in Error
 - Duplicate service
 - Billed in error
 - If there are fields that cannot be edited
 - Clinician name
 - Some procedure codes
- Change the service status to Error
 - A service in Error will not bill out
 - Putting a service in Error will also delete the attached progress note. If a progress note has been entered, make sure to work with the clinician before putting a service in Error
 - The clinician will need to save the content of their note prior to putting it in Error if applicable
- **Never put a claimed service in Error status**

Demo - Changing a Service to Error

Switch service status from
Complete to Error

Editing Progress Notes

- If the documentation of a service note needs to be edited that can only be completed by the original author of the note
 - If the author edits their note, they should enter a blurb at the top of the note stating it was edited.
 - A note cannot be edited after 45 days from the date of service
- Please see QM's policy and procedure around editing documentation
 - <https://dhs.saccounty.gov/BHS/Documents/BHS-Policies-and-Procedures/PP-BHS-QM-10-30-Progress-Notes-%28Mental-Health%29.pdf>

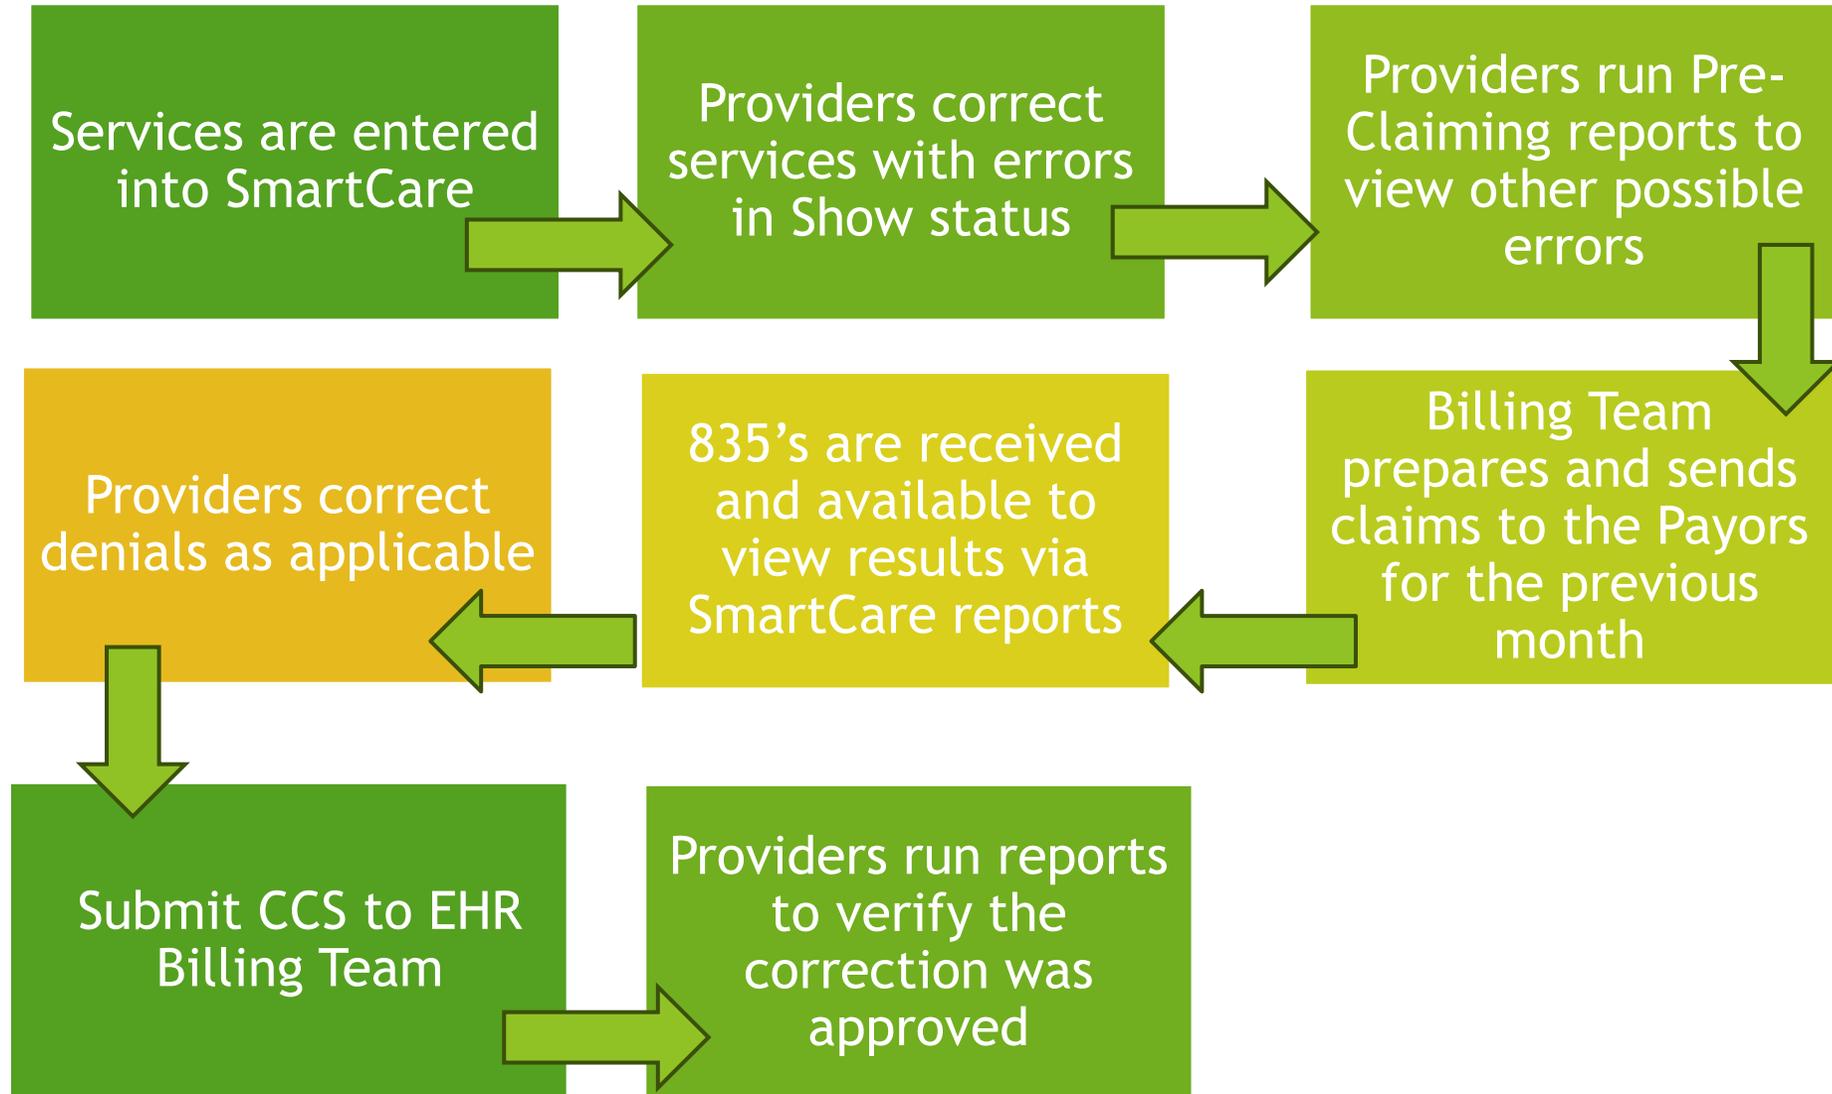

Editing Progress Notes Cont.

- If a note is unsigned and the author is no longer at the agency, the service must be put into Error status
 - To save the content of the note, another provider can enter the documentation with a non-billable procedure code
- Edits to the service do not affect the PDF of signed document
 - The author of the document will have to create a new version by editing the note and signing it again

Part 2 - Pre-Claiming

- Billing Process
- Pre Claiming Errors
- Pre Claiming Reports

Billing Process

➤ What is an Overnight Job?

- Overnight Job validates the services entered into SmartCare
- It will assign a status to each service that was entered: Show or Complete
 - **Complete:** service is ready to be claimed
 - **Show:** there may be some issues with the service that need to be addressed

Overnight Job

Errors That will Prevent a Service from Billing Out

- The errors listed below will prevent a service from billing out
- Below each error, is the resolution to fix the error
 - Financial information has not been complete for the client
 - Refer to the Client Account Screen, check the box for Financial Information is Complete
 - Billing diagnosis required before completing the services
 - Run Services Diagnosis Error (Sac) (My Office) report
 - Unable to find matching rate for the selected procedure
 - Reach out to the EHR Billing team- BHS-EHRBilling@saccounty.gov
- These errors can all be found on the Services (My Office) screen

Additional Pre-Claiming Reports

- The information shown on the following reports will not prevent services from claiming out
- These types of errors are errors that will later cause a denial
- These types of errors can still be corrected during post-claiming
 - The corrections process is easier if caught during pre-claiming
- It is best practice to run these reports at least once a month prior to services claiming out

Part 3 - Understanding Post-Claiming

- Post-Claiming
Definitions
- Transaction Types
- Class Activity
 - Choosing the correct
transaction

What is Post-Claiming?

Post Claiming occurs after services have been sent to the payor

Post-claiming corrections must be completed after the payor adjudicates the service

If a payor denies a service, a denial will be created

Approved services can also be corrected if necessary

Program Types

- There are different timelines and requirements for the three different program types
 - MH
 - SUPT
 - ECM
- When making post claiming corrections, make sure to use the correct timelines and guidelines for your program type
 - Timelines for each program type can be found on the Claiming tab of the BHS EHR webpage

Post-Claiming Definitions

- 837- Transaction that includes claim information for the purpose of reimbursement for a rendered service
- 835- Transaction that is sent in response to an 837 and contains remittance information about claims submitted for rendered services
 - You can view the 835 information using reports in SmartCare
- Adjudication- The process of paying claims submitted or denying them after comparing claims to the benefit or coverage requirements
 - Payor Claim Control Number (PCCN)- The unique ID number for the claim in the State's Medi-Cal adjudication system.

Transaction Types

- The transaction types, definitions, and special circumstances can be found on our webpage under the SmartCare Claiming tab
- The transaction types are listed below:
 - Initial- The initial claim for services
 - Void- Used to remove a service
 - Replacement- Used to replace a service claimed with incorrect information
 - Rebill- Used when the correction doesn't meet additional billing requirements on the “Transaction Types” document
 - Example CIN correction
 - ECM providers will only be using Rebill when processing their corrections
- Correction timelines and requirements are different for MH, SUPT, & ECM programs
 - [transactionTypes_04222015.xlsx \(saccounty.gov\)](#)
 - [ECM Transaction Types_02072024.xlsx \(saccounty.gov\)](#)

Part 4 - Making Post-Claiming Corrections

- Post-Claiming Process
- Viewing Approved and Denied Services
- CARCS/RARCS
- CCS
- Modifiers

Post-Claiming Corrections Process

Correcting Approvals

- Determine whether the service has been approved and/or adjudicated by running the Program Approvals Report view all approved services
- Complete a CCS and email encrypted to BHS-EHRBilling@Sacounty.gov
- Use the Medi-Cal Correction Tracking report to view when the Billing Team has submitted the corrections to the state
- Run the Approvals report to confirm the service has been approved

Correcting Denials

- Run the Program Denials Report to view denials and denial codes
- Go onto the EHR Claims webpage and click on the link to the state's webpage CARC/RARC
- Make corrections based on the denial
- Complete a CCS and email encrypted to BHS-EHRBilling@Sacounty.gov
- Use the Medi-Cal Correction Tracking report to view when the Billing Team has submitted the corrections to the state
- Run the Approvals report to confirm the service has been approved

Viewing Approved Services

- Program Approvals Report- This is run by the dates that an approval was posted. All programs can run this report monthly to view their approvals.
 - The report pulls based off the posted date, not approval date. The report should only be run once per date range.
 - Corrections can be made to approved claims as needed.

Viewing Denied Services

- Program Denials Report- This is run by the dates that a denial was posted. All programs must run this report monthly to view their denials.
 - The report pulls based off the posted date, not denial date. The report should only be run once per date range.
 - Denials will continue to show on this report once they've been corrected.

Claim Adjustment Reason Code/Remittance Advice Remark Code (CARCs/RARCs)

- The denial remarks can be found on the Program Denials report, if additional details are needed you can view the CARC/RARC
- Use the denial code you found on the Program Denials Report and look up that denial code description on the CARCs/RARCs
- There is a separate CARC/RARC for SUPT & MH providers

Demo

**MH

- After correcting the service error that caused the denial in SmartCare, complete a CCS and send to BHS-EHRBilling@Saccounty.gov
 - All CCS's must be emailed encrypted to protect client PHI
 - Multiple services and multiple clients can be listed on the same CCS
- The CCS is posted on the EHR Claiming webpage
- The first tab of the CCS has detailed instructions on how to fill out the document
 - Refer to these instructions if you are unsure of which transaction to use in column A
 - At the bottom of the instructions, it goes over the purpose and restrictions for each transaction type

Reports for Tracking Corrections

- Medi-Cal Correction Tracking Report- This is used as a tool to track post-claiming corrections. When a submitted CCS has been processed the corrected service will appear on this report, once it's been claimed to the state. Staff can cross-check this report with the Program Denials Report to view corrections that have been submitted.
- The adjudication of the corrected service will not appear on this report. Adjudication will appear on the "Client Account" screen.

Modifiers

- A modifier is used to give additional information about a service
- Modifiers are primarily used when the client or the procedure codes are in a lockout situation
- Some procedure codes require a modifier to be entered when paired with other procedure codes
 - These types of modifiers may not always be caught during pre-claiming, if this was missed it can be fixed using the post-claiming corrections process

Entering Modifiers

- Sacramento County Billing Team will enter the modifiers, at the request of the providers
- To request a modifier be entered onto a service, complete a Claims Correction Spreadsheet (CCS)
 - If caught at pre-claiming: use Initial for the transaction type
 - If caught at post-claiming: use Replacement for the transaction type
 - Do not combine both pre-claiming and post-claiming services on the same CCS

Part 5- Other SmartCare Corrections

- Procedure Codes
- Deleting or Editing Other Types of Documents
- Correcting Common Error Messages
- Getting Locked out of SmartCare

Procedure Code Corrections

- Access to procedure codes are based on the practitioner's classification and the program itself
- If a procedure code is missing for a staff member it could mean:
 - The staff's license is expired or missing in SmartCare
 - The procedure code is unavailable to their classification or their program
 - If a procedure code needs to be added to the program, reach out to your contract monitor
- Not all procedure codes can be edited once a service is in Complete status
 - If a code cannot be edited, then the service will need to be put in Error status by admin staff
- If a staff member is missing procedure codes on their procedure drop-down, this means their license needs to be updated in SmartCare
 - License updates and questions can be sent directly to QM at DHSQMStaffReg@Saccounty.gov

Deleting or Editing Other Documents

- Assessments and Diagnosis Documents can only be edited by the author of the document
- If the author of the document is no longer with the agency the document cannot be edited
 - Staff are able to create a new document if necessary
 - If a pending document needs to be deleted, send the details of that request to BHS-EHRSupport@Saccounty.gov in an encrypted email
- Scanned documents can be deleted in the Scanning (My Office) screen
 - Only the person who scanned in the document can edit or delete the scanned document
 - You will not be able to delete a scanned document in the Documents (Client) screen
 - If the person who scanned in the document is no longer at your program, send the details of that request to BHS-EHRSupport@Saccounty.gov in an encrypted email
- Refer to the tip sheet on the BHS Training Page for instructions on how to delete or edit a scanned document
 - [BHS EHR Training & Schedule](#)

Error Messages

- If you are unable to access certain fields or receive a red error message, follow these basic troubleshooting steps:
 - Ensure you are launching SmartCare in Microsoft Edge or Google Chrome
 - Clear your browser cache
 - Log out of SmartCare
 - Go to the web browser's privacy settings and clear your cached images and files
 - See the Clear Browser Cache tip sheet for instructions
 - <https://dhs.saccounty.gov/BHS/BHS-EHR/Pages/Support.aspx>
 - Switch web browser
 - Contact EHR Support

Error Message: You Are Not an Authorized User

- SmartCare will lock your account for one of these 3 reasons:
 - Password is entered incorrectly at least 3 times
 - Security questions are answered incorrectly (Capitalization Matters!)
 - Password is autosaved with the wrong information
- SmartCare allows 3 attempts to enter a password before your account is locked
 - Use the “Forgot Your Password” link after the second attempt to reset your password
 - To unlock your account, you must call the EHR Support Line at 916-876-5806
 - Office hours are Monday-Friday 8am-5pm, except for county holidays
- Tip: Click on the “eyeball” on the password line to check for any typos

Error: Saved Password no Longer Working

- Browsers' password manager may have been updated with the wrong information
 - Easiest way to avoid this to not use password autosave feature in Chrome or Microsoft Edge
- Go to your browser's password settings to remove incorrect entries
 - See the Remove Autofill tip sheet for instructions for Google Chrome and Microsoft Edge
