Subject: Continue Funding for 988 and CWRT

Dear Behavioral Health Commission,

I am writing to support continued funding for 988 and the Community Wellness Support Team. These are vital and humane services essential for those living with severe mental illness as well as their families and loved ones. It is especially important now with Sacramento's Sheriff Department refusing to respond to 5150 calls as it is the only lifeline for these individuals.

Please support this funding.

Janice Whiteside
