5:50 pm County Website Review

- Members provided observations and critiques to the county behavioral health youth services webpage.

- Member critiques included:
 - The webpage should be easily accessible via google, with multiple keywords pulling it up.
 - Member of the public acknowledged needing specified services for linguistic/cultural needs.
 - The webpage is not as youth friendly, as it requires a lot of reading and scrolling. Members recommended QR codes and social media links.
 - Phrasing and structure of webpage can be reconsidered to be more welcoming for youth. Reaffirming language is necessary in comparison to call to actions. Structure of page could be compartmentalized so youth can easily access the specific services they are in need of.
 - Webpage should detail who is offering services (I.e.; hotlines should state if the youth will be speaking with a counselor or peer).
 - Lack of substance misuse/abuse services on webpage.
