Background/Context:

Our Mission -To provide a culturally competent system of care that promotes holistic recovery, optimum health, and resiliency.

Our Vision - We envision a community where persons from diverse backgrounds across the life continuum have the opportunity to experience optimum wellness.

BHS Equity Vision Statement - Sacramento County Behavioral Health Services (BHS) envisions a community where all Sacramento County residents thrive and have equitable access to optimal behavioral and emotional wellness. By racial equity we mean closing the gaps so that race does not predict one's success, while also improving outcomes for all.

BHS Equity Core Values - Client and family driven; Mutual collaboration and partnership; An environment of belonging, emotional safety, and promotion of expressions of diversity; Staff reflective of community served; Accountability, impact, results; Innovation/fundamental change.

This policy reflects a restatement of existing practices and ensures compliance with the cultural competence and linguistic requirements mandated for mental health/behavioral health services to diverse populations as outlined in the Sacramento County Phase II Consolidation of Medi-Cal Specialty Mental Health Services - Cultural Competence Plan 1998, 2002, 2003, 2010; the California Code of Regulations Title 9, Chapter 11, Section 1810.410; the State of California Department of Health Care Services Behavioral Health information Notice No.: 20-070; and the National Standards for Culturally and Linguistically Appropriate Services (CLAS) in Health and Health Care.

Definitions:

“Cultural Competence” is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer

providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations. (Adapted from Cross, et al., 1989)

“Cultural Competence Plan (CCP)” - The California Code of Regulations (CCR), Title 9, Chapter 11, Section 1810.410 states that each Mental Health Plan (MHP) shall develop and implement a Cultural Competence Plan that addresses eight specific criteria. The criteria are explained in California Department of Mental Health (DMH) Information Notice NO.: 10-02 - The 2010 Cultural Competence Plan Requirements (CCPR) and DMH Information Notice NO.:10-17 -The 2010 Cultural Competence Plan Requirements (CCPR) Modification. The CCPR is intended to move county behavioral health systems toward the reduction of mental health/behavioral health service disparities identified in racial, ethnic, cultural, linguistic, and other unserved, underserved, and inappropriately served populations.

Purpose:

This policy serves to communicate to BHS and BHS contract provider staff and volunteers the commitment to provide culturally responsive and linguistically proficient services to ultimately eliminate behavioral health disparities in access, quality and outcomes of behavioral health treatment in diverse cultural, racial, ethnic, linguistic, LGBTQ, or other unserved, underserved or inappropriately served communities. Additionally, the policy provides guidance around implementation, training, and oversight of the Cultural Competence Plan.
