

SUPPORTING COMMUNITY CONNECTIONS (SCC) PROGRAMS

SCC programs provide early intervention services in underserved communities in unique ways by:

- Improving timely access to and linkage with behavioral health services
- Providing and participating in culturally responsive outreach
- Provide culturally responsive screening, information, and referral services
- Offering support services to reduce the likelihood of suicide, self-harm, and to decrease prolonged suffering

SCC programs have staff who are culturally aligned with and can provide services in the following languages: Arabic, Dari / Pashto, Farsi, Russian, Spanish, Vietnamese /Cantonese / Hmong and Mien.

As SCC program staff meet and provide support to community members, they can inform them about the behavioral health services that are available to them (if more intensive support is needed beyond what the SCC program can offer) and help link them to those services.

Any resident of Sacramento County (regardless of Medi-Cal eligibility) can access these services directly by contacting the SCC program they are interested in. Please see the Resource List below for a full list of programs and their contact information.
