	<p>CORE site also has an attached CWC which serves as a low barrier access point to treatment as well as a step-down. There was a redesign of the Adult Mental Health OP system within the last three years, and BHS emphasizes the importance of providing co-occurring treatment. BHS Substance Use Prevention and Treatment (SUPT) staff are stationed at a majority of the CORE locations to provide screenings and linkage to Substance Use Disorder (SUD) treatment.</p> <ul style="list-style-type: none"> • Member Wentzel: <ul style="list-style-type: none"> ○ Question: Is BHS expecting to fund all Full Service Partnerships (FSPs) for next Fiscal Year 2026/2027? It would be helpful to identify gaps in services and hear informative presentations about available services and funding resources. ○ Response: There have been no funding cuts for BHS OP Programs. • Member Durbin: <ul style="list-style-type: none"> ○ Question: Is there any information about the number of individuals who are receiving SUD treatment services compared to the number of individuals in the community who have a SUD? ○ Response: Specific data is not currently available, but this raises a good point about the importance of supporting individuals with accessing treatment. • Member Wentzel: <ul style="list-style-type: none"> ○ Question: Of the individuals being served, how many are being served at the highest level of care for SUD? ○ Response: Specific data is not currently available although a majority of individuals are being served by Medication Assisted Treatment (MAT) Programs for Opioid Use Disorder. • Member Wentzel: <ul style="list-style-type: none"> ○ Question: Are Withdrawal Management services needed? If so, are there challenges with getting individuals into services due to a lack of available beds or co-occurring issues? ○ Response: Yes, there is a huge demand for Withdrawal Management services. BHS is linking individuals to care within a 10-day period and has substantially increased bed capacity for Withdrawal Management and Residential Treatment as well as Sober Living Environments/Recovery Residences. • Member Wentzel: <ul style="list-style-type: none"> ○ Question: Is Behavioral Health Services-Screening and Coordination (BHS-SAC) able to complete the Level of Intensity Screening Tool (LIST)? Can anyone complete the LIST? ○ Response: Typically, these referrals are coming from Providers and hospitals, but BHS-SAC can internally route the referral to our Intensive Placement Team for FSP services.
