

ADULT CORRECTIONAL MENTAL HEALTH
 Behavior Management Plan

Patient Name: _____ XREF: _____ Date: _____

The purpose of a Behavior Management Plan (BMP) is to target and resolve behaviors which are problematic for the patient in the correctional setting. The goal of the BMP is to provide a framework for Custody, MH and other treatment providers to intervene and support the patient to reduce behavioral issues that impact the patient's functioning and ensure housing in the least restrictive environment. The BMP shall be reviewed and/or revised by the Behavior Management Committee every 30 days or as clinically indicated.
