

COUNTY OF SACRAMENTO
ADULT CORRECTIONAL HEALTH
 Safety Inspection Form – Medical Areas

Inspector Name: _____ Date: _____

Area Inspected: _____ Facility: _____

Inspection Item(s)	Pass	Fail	If fail, Corrective action(s)
The alarm system that provides a warning for emergency action is perceptible above ambient conditions.	<input type="checkbox"/>	<input type="checkbox"/>	
First aid kits are easily accessible, fully stocked and replenished as needed.	<input type="checkbox"/>	<input type="checkbox"/>	
Eyewash stations are available in areas where there may be exposure to hazardous materials.	<input type="checkbox"/>	<input type="checkbox"/>	
Fire extinguishers are adequate in number and type, free of obstructions, and mounted in readily accessible locations.	<input type="checkbox"/>	<input type="checkbox"/>	
Materials are not stored or stacked within 18" below any overhead fire sprinkler heads.	<input type="checkbox"/>	<input type="checkbox"/>	
All exits are adequately marked, illuminated by a reliable light source, and kept free of obstructions.	<input type="checkbox"/>	<input type="checkbox"/>	
All work areas, aisles and hallways are clean, orderly and free of obstructions, trip hazards, sharp corners and objects.	<input type="checkbox"/>	<input type="checkbox"/>	
Adequate aisle space is maintained to allow proper material handling without hazardous obstruction or blockage.	<input type="checkbox"/>	<input type="checkbox"/>	
Kitchen and toilet facilities are in a sanitary condition and measures are taken to prevent slipping on wet surfaces.	<input type="checkbox"/>	<input type="checkbox"/>	
Spilled materials or liquids are cleaned up immediately.	<input type="checkbox"/>	<input type="checkbox"/>	
All electrical equipment, appliances, tools and cords are in good repair and effectively grounded or double insulated.	<input type="checkbox"/>	<input type="checkbox"/>	
Multiple plug adapters are not used unless protected by ground fault circuit interrupt (GFCI).	<input type="checkbox"/>	<input type="checkbox"/>	
Floors, walls, baseboards, sockets and computer jacks are in good repair.	<input type="checkbox"/>	<input type="checkbox"/>	
All work areas have adequate lighting.	<input type="checkbox"/>	<input type="checkbox"/>	
Furniture is adjusted, positioned and arranged to minimize strain on all parts of the body.	<input type="checkbox"/>	<input type="checkbox"/>	
Hazardous substances, blood, & other potentially infectious materials (OPIM) that may cause harm by inhalation, ingestion, contact or skin absorption are identified.	<input type="checkbox"/>	<input type="checkbox"/>	

Inspection Item(s)	Pass	Fail	If fail, Corrective action(s)
Occasions of potential occupational exposure are identified and documented.	<input type="checkbox"/>	<input type="checkbox"/>	
Facilities/equipment to comply with workplace practices are available, such as hand-washing sinks, sharps containers, disinfectants, etc.	<input type="checkbox"/>	<input type="checkbox"/>	
Universal precautions are observed when exposure to blood or OPIM can occur and when differentiation of types of body fluids or OPIM is difficult.	<input type="checkbox"/>	<input type="checkbox"/>	
Necessary equipment is provided for administering mouth-to-mouth resuscitation on potentially infected patients.	<input type="checkbox"/>	<input type="checkbox"/>	
Personal protective equipment (PPE) is provided, used and maintained whenever necessary.	<input type="checkbox"/>	<input type="checkbox"/>	
Respirators are NIOSH approved for this application.	<input type="checkbox"/>	<input type="checkbox"/>	
Respirators are regularly inspected and cleaned, sanitized and maintained.	<input type="checkbox"/>	<input type="checkbox"/>	
Where needed for emergency use, respirators are stored in a convenient, clean and sanitary location.	<input type="checkbox"/>	<input type="checkbox"/>	
Respirators intended for emergency use are adequate for the various uses for which they may be needed.	<input type="checkbox"/>	<input type="checkbox"/>	
There are proper receptacles for disposal or disinfecting PPE and clear instructions.	<input type="checkbox"/>	<input type="checkbox"/>	
Caution labels and signs are used to warn of hazardous substances and biohazards (e.g. bloodborne pathogens).	<input type="checkbox"/>	<input type="checkbox"/>	
Each container for a hazardous substance is properly labeled.	<input type="checkbox"/>	<input type="checkbox"/>	
Infectious waste is placed in closable, leak proof containers, bags or puncture-resistant holders with proper labels.	<input type="checkbox"/>	<input type="checkbox"/>
