Comments:

- Knowledgeable and very approachable. Takes all of the different opinions in stride. Asset to clinic.
- Excellent communicator. Articulate, clear, impressive knowledge.
- Would like to see more of a focus on homelessness providing healthcare for those individuals. It appears more focus on the clinic and its patients rather than those with limited access. Overall has done a great job as project director.
- Marcia is a wonderful facilitator – very knowledgeable of community issues and opportunities available. She is available to all of us whenever requested and usually has insight or knowledge to find a solution or connect w/correct person.
- She is very professional and at the same time she is very approachable and understands social justice issues.
