SMART

Specialized Multiple Advocate Resource Team

August 8, 2014:
DDS & SSA join our SMART
staff in celebrating four years
of helping our community...

SMART Mission

SMART's mission is to connect eligible individuals with expedited access to Social Security disability and health care services. Our nationally accredited Benefits Advocates have formed unique partnerships with the Social Security Administration, State Disability Determination services, and local community based organizations to ensure the successful submission and resolution of disability claims.

So why choose SMART?

- Nationally accredited disability filing experts, who strictly specialize in disability claims.
- SSI/SSDI success rates which are 5 times the national average for first time applicants.
- Access to payee services/entitlement support/housing/medical care.

SMART Success

The SSI/SSDI application process is notoriously difficult; it is even harder for those with limited support and resources.

SMART Benefits Advocates provide individual attention to each customer, assisting with everything from forms completion, to gathering medical evidence and providing transportation to appointments.

SMART has connected more than 600 individuals in the Sacramento region with disability benefits, and even more have been connected with MediCal health benefits.

To date, SMART's success rate for SSI/SSDI applications is 5 times the national average for homeless individuals. In addition, applications processed through SMART are approved 3 times faster!

SMART Partners

SMART is currently operational in two Counties (Sacramento/Yolo) and serves as the model for Marin County's RISE Program. Our extensive network of medical professionals, disability filing experts and social service organizations provide a seamless and streamlined approach to filing your disability claim.

SMART is a collaborative regional project, with partners including Capitol Health Network, El Hogar Guest House Clinic, CommuniCare Health Centers, Sacramento County Division of Mental Health, and the regional SSA & DDS offices. SMART is funded by the County of Sacramento.
