Instructions

As part of statewide efforts to prevent identity theft, California law requires this office to issue 2 different types of certified copies: **authorized** and **informational**. Both types are certified copies of the original.

An **authorized certified copy** establishes the identity of the registrant (the person identified on the certificate). Only individuals who are authorized by Health and Safety Code section 103526 can obtain an authorized certified copy of a death record. (The second section of the application identifies the individuals who are authorized to make the request.) Applicants requesting an authorized certified copy must complete the **Sworn Statement**, declaring that they are eligible to receive the authorized certified copy.

All other individuals are issued an informational certified copy, which is marked: "INFORMATIONAL NOT A VALID DOCUMENT TO ESTABLISH IDENTITY."

First Section – Death Record Information

Provide all the information you have available to identify the record. If the information provided is incomplete or inaccurate, the record may be impossible to locate. For the requested record, please indicate the number of certified copies desired.

Second Section – Authorized Certified Copy

To request an authorized certified copy, you (the applicant) must indicate your relationship to the registrant (the person identified on the certificate) and complete the **Sworn Statement** on page 2 witnessed by a Notary Public, declaring under penalty of perjury that you are eligible to receive the authorized certified copy. You will also need to have the **Certificate of Acknowledgement** completed by a Notary Public. Applicants who cannot claim a relationship authorized by Health and Safety Code section 103526 are issued an **informational certified copy**, which is marked "INFORMATIONAL NOT A VALID DOCUMENT TO ESTABLISH IDENTITY."

Third Section – Applicant Information
