

MDRAN

Makes Referring Your Clients to Dental Care Easy

The Medical Dental Referral and Navigation system (MDRAN) was developed to increase access to dental care and is free to use. MDRAN allows users to refer Medi-Cal beneficiaries to a dental provider in less than one minute. The Medi-Cal dental plans, in partnership with MDRAN, utilize their care coordination teams to provide the support, such as transportation and interpretation services that many beneficiaries need to receive dental care.

Oral health care is an integral part of the health and wellness.

MDRAN is a secure, HIPAA compliant, internet-based system that allows users to:

For a demonstration of MDRAN or to get more information
