

Opioid Awareness Summit

For Educators & Public Health Professionals

Tuesday, October 11, 2022 | 8:30 AM - 4:00 PM
at the CSU Sacramento University Ballroom

SACRAMENTO
STATE

Who Should Attend: Educators, School Nurses, Counselors, Mental Health Clinicians, Substance Use Clinicians, Coaches, Parents, or anyone with an interest in student health, prevention, policymaking, and related fields are cordially invited to take place in this **FREE** educational opportunity.

(CME accreditation pending)

- > Learn about the current and projected state of the opioid epidemic through a data-driven overview of opioid misuse, poisonings/overdoses, and deaths in our region.
- > Get in the know with an intelligence briefing by federal, state, and local law enforcement as they discuss trends and current emerging threats facing our youth.
- > Discover risk factors that increase the likelihood a youth will misuse opioids or other controlled substances.
- > Learn about the science and progression of addiction and the devastating impacts of stigmatization.
- > Discover prevention and intervention strategies and learn about behavioral changes that may indicate misuse and how you can help.
- > Attendees will learn about classroom-ready resources to assist youth.

You must register to participate. No walk-ins or day of registration will be permitted. Registration is not final until you receive a confirmation email. Register [HERE](#) or with the QR code.

Contact Sean Vassar with questions only:
