

Mental Behavioral Health Workforce Pathways

Mental Behavioral Health Workforce Pathways Advancement Overview

Valley Vision will implement, convene and assist with action planning for a county wide advisory focused on developing aligned pathways into Mental and Behavioral Health (MBH) Careers.

These efforts will prioritize the attraction and growth of diverse students and candidates in the Greater Sacramento region.

Goal: Address the skills gap through talent pipeline expansion, collaboration between education and employers, job demand analysis and planning, mapping education options and talent flows, and ensuring pathway sustainability.

Demand Planning Survey

Your Voice Matters: Mental and Behavioral Health Workforce Pathways Survey

This survey aims to gather insights on hiring challenges, workforce needs, and training opportunities in the mental and behavioral health sector to inform Sacramento County's Regional Mental and Behavioral Health (MBH) Workforce Advisory, facilitated by the Sacramento County Office of Education. Your input will help identify key workforce gaps and inform solutions to strengthen the MBH talent pipeline.

Results from the survey will:

- Inform demand planning to forecast MBH job needs
- Assess job quality metrics
- Aid mapping of available training programs and onramps to MBH careers
