An APOT Solution...

Is multi-faceted and complex.

Collaboration –
EMS/hospital
leadership/ED
staff/SCEMSA.

Education – ED staff on
EMTALA obligations,
necessity of 5050 policy.

Implementation –
Alternative destination
strategies and other
programs.

Monitoring and Reporting
– Accurate APOT data.
Establish realistic goals
for incremental
improvement.

Advocating – Legislative
and regulatory changes
that will support EMS,
hospitals and SCEMSA.

Sacramento EMS Agency Imperatives:

Leverage new and existing programs:

1. Triage to alternate destination.
2. BLS-tier response.
3. Telehealth.
4. Mobile integrated health.
5. Dispatch strategies.
6. Substance abuse programs (sobering, EMS Buprenorphine).
7. Inter-facility transfer efficiencies.
